DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Fujimoto Tsukasa (JP 2000280813) discloses a load sensor which detects the load which acts on a sheet based on distortion of a sheet adjuster but fails to disclose an ignition key switch and a buckle switch are in off conditions and a load detection value from load sensor in off conditions falls below an unoccupied-seat load value set in advance, correcting unoccupied-seat reference value through the use of load detection value from load sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
